

## Stage 2 – Kloiya Bay to Rainbow Summit – 13.0km

This stage begins uphill for about 1km, and is gently undulating for the first 7km, with several picturesque lakes to be seen on the left. After Prudhomme Lake Provincial Park, the steep climb to Rainbow Summit begins. At 11km, Rainbow Lake can be seen to the right. The stage finishes with a fairly steep climb to the transition at 13km, which is about 1.4km short of the summit. There is a large, although somewhat uneven pullout on the right opposite the transition.
